

ETOBICOKE CHILD AND FAMILY RESOURCES

Programs and Services for Parents and Children Prenatal to 6 Years of Age

The Etobicoke Brighter Futures Coalition is a collaborative group of community agencies that work together to plan, develop, and deliver services that improve the health and wellbeing of vulnerable young children within the context of their families and their communities. Our vision is to work toward the creation of a seamless network of integrated services for all young children and their families.

Child and Family Early Learning Programs

Drop in and registered programs for children and their parents or caregivers that foster early learning, social and emotional development and family support and help families identify and get connected to the additional supports and services they may need.

Child and Family Protection Services

Children's Aid Societies and Women's Shelters are dedicated to the prevention of abuse and mistreatment of children and women and provide care, safety and support to children and families experiencing violence, neglect and maltreatment.

Child Care Programs

Home or centre based programs that provide early learning and care for children up to age 12 and support healthy development and positive outcomes for all children.

Community Health Services

Deliver primary care services, health promotion and illness prevention with a focus on family and community well-being and the social, economic and environmental issues that negatively impact health.

Specialized Intervention Services

Services that support concerns regarding child and family mental health, social-emotional development, communication, behaviour and child development.
